Title:

PRELIMINARY AMENDMENT

Prior to the initial review of the U.S. Non-Provisional Application Serial No. 09/899,527 filed on July 5, 2001 by James Alan May et al. entitled "Real-Time Alert Mechanism For Monitoring And Controlling Field Assets Via Wireless And Internet Technologies", please amend the application as follows:

IN THE ABSTRACT

On Page 24, please replace the entire Abstract with the following rewritten Abstract.

An apparatus and system are disclosed for the real-time monitoring and control of field assets. The monitoring device, operable to couple to a field asset, may be designed to leverage one or more technologies included in the field asset or as a stand-alone unit and is preferably operable to detect one or more error conditions thereon. The error conditions may
